## Port Hueneme

### *"The Seabee Link to Readiness"*

## APRIL 03 SITREP

### N3/5 Operations & Plan Department

**LCDR Brant Pickrell, Director**

<mailto:PickrellBD@cbchue.navfac.navy.mil>

- MPF Reconstitution TOA container preparation is on-track for a mid-June completion.
- ILO philosophy and process development plan briefed at the LWG. Draft follow-on brief to RPC prepared and in review process.
- CMC(SCW) Gerstenschlager reported to CBC N3/5 and is now serving as NCBCPH's NCTC CESE manager.

#### MUSE

- MUSE Team on board Guam (PWC/CSS15) to install steam plant at Polaris Point facility for ship service.
- Second MUSE Team scheduled to depart for Guam (CSS15) 21 Apr for the installation of power plants and substations at Polaris Point.

#### 3M implementation

- Conducted maintenance analysis on 8 pieces of Quarry and plant CESE at Orote Point, Guam. Draft Maintenance Requirement Cards (MRC's) scheduled to be available for an on site validation during July 2003 time frame.
- Commenced MicroSNAP/OMMS installation onboard 20<sup>th</sup> SRG followed by their 3-M training suite.

#### MTVR Simulator Facility NCBCPH

The MTVR Simulator Facility for NCTC Port Hueneme is still waiting for final negotiations. Ktr came in significantly above the IGE. The Fort Leonard Wood facility's BOD was 28 March 03. Simulators to be onsite soon with installation during the weeks of 14 and 21 Apr. Simulator acceptance will occur the week of 5 May. Ribbon cutting set for 20 Jun 03. NCTC Gulfport design is tracking with an ECD of May 03. Still working funding to execute this FY. Updated schedule for all facilities can be found at the CBC Intranet site at <https://ncf.navy.mil/ncbc/> under the N3/5 link.

### N4 Logistics Department

#### **Dean Sommerhauser, Director**

<mailto:SommerhauserDP@cbchue.navfac.navy.mil>

#### CDM Branch:

- UCT 2 has completed MicroSNAP OMMS installation and has downloaded their first two ASI tapes

they have completed the SCLSIS loop and are fully operational.

- Inventory validation effort was completed on Feb 14 at 20SRG (Gulfport & Camp Lejeune) the validation data from the validation effort is being updated in CDMD-OA database to reflect the true configuration.

#### Commodity Management

- Communication Commodity Managers provided direct support to NCF units participating in Operation Iraqi Freedom. \$100k of radio equipment repair parts was procured and shipped to I MEG.
- Additionally, \$392k of excess AN/PRC 104 radios was shipped to I MEF for USMC support. The AN/PRC 104 radios were replaced with AN/PRC 150s in the NCF TOA. USMC still uses 104s. CBCPH had 28 Condition Code "A" 104s radios remaining on hand.
- The Comm CMs also coordinated the "call out" and turnover of MPFIE3 Comm equipment to 1stNCR.
- Commodity Manager for CBR items and Infantry gear provided support to 125 NMCB-15 Reservist mobilizing through NCBCPH. Special effort was required due to the number of personnel and special sizing requirements.
- CBR Commodity Managers also supported mobilization of 30 additional SU2 follow on personnel. This effort required manual intervention to issue and turnover needed Individual Protective Equipment.
- CBR CMs also resolved special gas mask requirement for ACB1. Two female personnel required size extra small gas mask. The standard MCU2P and M40 mask used by non-shipboard Navy personnel does not come in an extra small size. Inquiry to U.S. Army item manager, two M45 extra small mask were located and express shipped to ACB1.
